PROFESSIONAL SUMMARY

Self-taught Frontend Developer with strong experience in crafting responsive, performant, and visually appealing web applications. Skilled in modern frameworks and UI libraries with the ability to integrate backend services when required. Currently interning as a Frontend Developer (Volunteer) at Odyssey, contributing to production-level projects and gaining full-stack exposure. Driven by clean code, scalability, and user-first design, with a consistent focus on learning, teamwork, and delivering impactful web solutions.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, Bootstrap
Tools & Workflows: Git & GitHub, Figma, Postman, Vercel, Responsive Design, Cross-Browser Compatibility, UI/UX Principles.

EXPERIENCE

- **Frontend Developer (Intern/Volunteer) — Odyssey (2024 – Present)**

• Collaborating with a development team to design and build responsive user interfaces.
• Implementing API integrations, managing state, and optimizing component performance.
• Assisting in frontend testing, bug tracking, and UI consistency across product modules.

- **Frontend Developer Intern — Larmda (2022)**

• Developed user-friendly, mobile-responsive interfaces using React, HTML, CSS, and JavaScript.
• Worked closely with designers to ensure smooth UX and design adherence.
• Improved code structure for better maintainability and scalability.

PROJECTS

Easy Banking Landing Page – https://easy-banking-landing-page-six.vercel.app

- Clean and modern financial services landing page built with React and Tailwind CSS, optimized for responsiveness and smooth animations.

Insure Landing Page – https://insure-landing-page-rose-sigma.vercel.app

- A professional insurance agency landing page emphasizing semantic HTML, accessibility, and modern design patterns.

Fylo Dark Theme Landing Page – https://fylo-dark-theme-landing-page-master-coral.vercel.app

- Dark-themed landing page demonstrating layout structuring, component reuse, and consistent branding.
